## Apr. 17, The Wild Sky Islands

12:30 pm–2 pm | Highlands Center for Natural History | Prescott

The towering mountains of southeast Arizona are a rich storehouse of wildlife diversity. Like an archipelago in a vast ocean, these “Sky Islands” bridge the Rocky Mountains to the north and the Sierra Madre Occidental of Mexico to the south, while at the same time rising thousands of feet above two deserts, the Sonoran and Chihuahuan. This is where the southernmost stand of Engelmann spruce meets the jaguar. Where more than 400 kinds of birds—tropical species like elegant trogons and eared quetzals and yellow grosbeaks along with tundra species like fox sparrows and common yellowthroats—cross paths. Join me for an intimate view in words and images of one of the world's most exotic places right here in Arizona.
